

Agreement

Following our email regarding your contract changes as of 1 January 2021, we are pleased to offer these terms and conditions for providing our platform and digital infrastructure.

Based on the types of data sources that are currently connected to your organisation within the 30MHz data platform, your organisation falls within the **Digital Connect plan**.

1. This contract will take effect on 1 January 2021
2. The contract duration is 12 months, with a notice period as included in the General Terms and Conditions
3. The investment for your platform subscription will be €99,- per month per location network
4. You currently have 1 location network

You are entitled to:

- One wireless location-based network connected to our data platform
- 24/7 connectivity via a private network
- Connecting any pre-configured and tested sensor from the [30MHz Catalogue](#)
- Converting crop and climate data into actionable insights with custom dashboards and data visualisation tools
- Access to our digital infrastructure
- Unlimited users, dashboards and data exports
- Unlimited organisational groups, manual data input and data sharing
- 1-year warranty on hardware orders from the [30MHz Catalogue](#)
- Custom branding of your organisation within the platform

Sensors from the [30MHz Catalogue](#) can be added at any time for the duration of this agreement.

Our platform enables your organisation to conduct better research at crop and product level, increase yield, reduce losses, optimise irrigation, improve storage conditions, prevent disease risks and reduce energy consumption.

The 30MHz general terms and conditions apply to this agreement, which can be found on our website: <https://www.30mhz.com/terms-and-conditions>.

The complete overview of available plans can be found on the following web page: <https://www.30mhz.com/pricing>.
